

## A short history of the universe

Cosmology Timeline: Ancient Greek, Vedic & Islamic to Big Bang Theory

<http://www.spaceandmotion.com/cosmology-history-astronomy-universe-space.htm>

- **The universe has always existed - Static / Steady State Model**
  - **The universe is expanding and contracting - Cyclical / Oscillating Model**
  - **The universe had a beginning - Bible (Torah- Moses) - later Big Bang / Inflationary Model**
  - **The universe is just one of many - Multiverse Model (Seeks to deal with fine tuning - design)**
- “our organized universe is just one temporary episode”**

Abrahamic Universe - Several medieval Christian, Muslim and Jewish scholars put forward the idea of a universe which was finite in time, 6th to 11th century. Georges Lemaître in 1927, a Catholic priest proposes that the universe had a beginning - “big Bang” 1950- from Fred Hoyle. Later corroborated by Einstein, Hubble, Friedmann, Guth, etc.

COSMOLOGICAL THEORIES THROUGH HISTORY

<https://www.physicsoftheuniverse.com/cosmological.html>

## Supernatural (non scientifically confirmed) beliefs in the Big Bang Model

- The Universe came from “nothing”, aka squished matter, a quantum field, etc.
- Multiverses answer the “fine tuning argument”
- Stellar evolution of planets, stars, and elements has not been observed and defies laws of physics
- Dark matter and dark energy have been constructed to patch up problem in Big bang theory

## Alternate universe formation theories within Supernatural Creation

Time Dilation theory by Dr. Russell Humphreys

Watch

D. Russell Humphreys, a physicist, has made scientific predictions as to the early universe being composed of “waters” and what that means for the magnetic fields of planets in a supernaturally created universe.

Introduction to the Plasma Model

Was this how God did it? Gravity-based models of the cosmos pose serious problems requiring the invention of dark matter, dark energy, dark forces. But if we take what we are seeing in space seriously, and simply examine the data, gravity is not the controlling force. What is the Zero Point Energy?
